ARKÉ

VIMAR

PRESA BIP. 6 AMP.  
Contatti Argentati  
SERIE PIAVE  
GARANZIA 5 ANNI

Products, systems and solutions for managing electric power since 1945. Vimar has been doing all this and much more, guaranteeing continuous improvement in every kind of housing style. Made in Italy combines design and technology with a view to increased reliability and energy savings. We have a term for all of this **energia positiva.**

Light is energy, heat, life. We have been working towards this with passion and desire for innovation since 1945, as we believe in growth and know that identity can only grow with tradition. Only in this way can we enjoy the history of success and achievements that sees us leading the Italian sector today, and present in the most important international markets.

WHO  
WE ARE

## 1945.

The Vimar adventure started in a former hat factory in Marostica, North-east Italy. The pear switch was launched before the 50s, causing Vimar to be known good heartedly as the “pear” factory for many years.

## 50s - 60s.

Electrical installations evolve: from lighting points with glass discs to the first residential series, in porcelain and thermoplastic materials.

## 60s - 70s.

Vimar patented the Sicury shutter, which prevents contact with live parts. It was made freely available to all manufacturers, becoming a regulatory standard.

## 80s.

The concept of “total quality” was born, a new approach whose cornerstones are innovation of the production cycle, internal organisation, dialogue with the market and customer satisfaction.

WHO  
WE ARE

## '90 - 2000.

New housing styles, with a more refined series, and home automation opening with By-me, the system that combines safety, comfort, energy-saving, control, communication and a video door entry system.

## 2010 - 2011.

Vimar is the official supplier for the Italian pavilion at the World Expo Shanghai: the company was chosen due to its leadership in the home automation sector and the manufacture of electric and electronic material. In 2011 Eikon Evo was born, and success came immediately. A veritable aesthetic and technological innovation, reconfirming Vimar's leadership in the home automation sector and in the production of electrical and electronic materials.

## 2012.

Vimar has acquired a majority stake in Elvox, a global player in the video entry systems, gate automation and CCTV market. The fusion has created the Vimar Group, an all-Italian enterprise with a comprehensive range of products, able to find solutions for home and buildings.

## People and values

For Vimar Group, the careful attention of those who contribute and have contributed to our success with their skills and professionalism is an inalienable and transversal value for the whole company. Continuous training, free health insurance, nursery subsidies and summer holidays for employees' children, various facilitations for pensioners and their families, plus a pleasant and stimulating work environment are proof that people are our most precious asset. It is no accident that our company complies with a health and safety management system certified to BS OHSAS 18001:2007.

## Made in Italy

The heart of the company - where we devise, design and produce products - is still located in north-east Italy, because we believe in the Made in Italy movement in all its forms. Our products are inspired by a truly unique combination of high quality aesthetics and reliable technology. From materials to lines and colour combinations to processing, we distinguish ourselves through a renowned style that speaks our language throughout the world.

## Research and Development

We invest 6% of our annual turnover in Research and Development, to ensure we always offer the very best in terms of technology and design. Over the years we have registered over 150 patents around the world that testify to the equal attention we devote to major innovation and the smaller details that guarantee the safety of simple everyday actions.

## Quality

Test products one-by-one. Not by chance have we obtained the most important quality certifications. The company has also drawn up an Ethical Code for this exact purpose, which defines behavioural guidelines for all collaborators.

WHAT WE  
BELIEVE IN

## Design

We have the most expert designers available to us so that we can help housing styles evolve together: various combinations of essential lines improve the look of every environment.

## Technology

We commit time and energy to developing new projects in the electro-technical, electronics and electronic materials fields on a daily basis. Because form and innovation can live alongside each other in harmony.

WHAT WE  
BELIEVE IN

# Simplicity

Innovating also means simplifying. Our products are extremely easy to use so that every single one of our customers can benefit from them.

# Certifications

Quality certification system according to the international standard UNI EN ISO 9001:2008. Vimar also adopts an environmental management system, according to the international standard UNI EN ISO 14001:2004, as well as a health and working environment safety management system certified BS OHSAS 18001:2007.

# SOLUTIONS FOR ELECTRICAL INSTALLATIONS

Five proposals from Vimar to bring light to every room, underlined by design: with the residential series, even electrical installations coordinate with the style of the house.

# Eikon

Luxury in all its forms: technological, chic, sophisticated, essential.  
Four ranges differing in their design, dimensions and finishes, all blending  
exquisite design with cutting-edge technology. For energy management in  
harmony with all your desires for living.

Arké Round

Arké Round

# SOLUTIONS FOR HOME

A full range featuring the state-of-the-art technology and style that Italy is renowned for the world over. Groundbreaking solutions to intelligently manage all indoor and outdoor devices and make your home the most comfortable and safest place to live.

# Control

For a total supervision of the entire house, even remotely via PC, tablet or simply with a smartphone, to manage scenarios, lighting, automation and control the temperature.

# Comfort

Management of temperature, lighting and for each environment.

# Sound system

Independent music management in every room in the home.

# Energy efficiency

Management of the electrical loads and control of the consumptions.

# Safety and Security

Supervision of the burglar alarm system and technical alarms.

12  
13

  
**by-me**  
home automation

## Radiofrequency

Radiofrequency devices for the home automation and lighting control, they are easy-to-use and ecologic: the EnOcean technology is their heart and enable the green energy for the activation of the buttons. And then: no battery, no cables and environment protected and contribute to energy saving.

# Video entry

State-of-the-art technology and cutting-edge design.  
A comprehensive range of products with something for every  
interior, whatever the style, and full control of what's happening  
outside the building.

**EDVAX**  
VIMAR group

SOLUTIONS  
FOR HOME

# WELL-CONTACT PLUS

by-com

Building automation system.

From lighting to access control, from supervision of consumption to dialogue with other devices already installed in the structure, everything can be managed through the Well-contact Plus system. A system developed on the KNX standard that allows you to program, coordinate and supervise all functions in the building, be it an office, a hotel, a store or a gym.

EIKON

FOUR-DIMENSIONAL  
LUXURY AND TECHNOLOGY

EIKON TACTIL

---

EIKON EVO

---

EIKON CHROME

---

EIKON TOTAL LOOK

---

# FOUR AESTHETIC DIMENSIONS.

Elegance, excellence, value: there's no such thing as a single idea of luxury. Luxury is a dimension with many interpretations, all in constant evolution. And if we're talking about energy, this dimension is Eikon. Every concept of luxury finds its perfect expression in Eikon: technological, chic, sophisticated, essential. Four product lines with different dimensions, finishing and functions, but sharing one common denominator: controlling energy superlatively.

EIKON TACTIL

# THE FUTURE TAKES SHAPE

# SEDUCTIVE

## RIGHT FROM THE FIRST TOUCH

Lightly touch the luminous glass surface and pause for an instant to admire the delicate glow of the crystal finishing. A featherlike gesture of the finger turned by elegant touch technology into a commanding control over energy.

# SENSITIVE

## TO YOUR PRESENCE

Eikon Tactil is home automation intelligence that reads your mind: the command proximity sensor detects your approach and, without waiting for a command, activates the device: the commands light up, waiting for your touch.

# EXQUISITE

## TRANSPARENCIES

Unrivalled purity in an astonishingly beautiful material: the crystal employed in Eikon Tactil is an unmistakable signature that exudes refinement while displaying extreme toughness. In four colour variants, to suit every style. The backlighting of the home automation system commands can also be personalised thanks to its RGB leds.

# LUMINOSI

CRIYTAL

---

Diamond black

Diamond white

A discreet and timeless allure plus a nonchalant elegance that effortlessly adapts to every context. In seductive hues housing perfect technologies.

CRIYTAL

---

Aqua

Pearl grey

20  
21

A shining choice, with the harmony of diamond white, the purity of diamond black, the delicate shading of aqua and the timeless mystery of pearl grey.

EIKON EVO

# LUXURY UNVEILED

# IMPERCEPTIBLE IN PROFILE

An impeccable silhouette, lightly wafer-thin, protruding only millimetres from the wall thanks also to its axial controls. Seen in profile, Eikon Evo offers a subtly fascinating and impalpable presence, in tune with current interior design trends. An aery lighting command-point with a strangely suspended effect. The design created for Eikon Evo in aluminium, wood and Corian® creates an elusive sense of detachment from eventual imperfections in the wall, conjuring up a floating sensation that highlights the finest materials and their finishing.

# MAJESTIC GEOMETRIES

Forms designed to make their mark, dimensions with a delicate presence on the walls: Eikon Evo projects a sophisticated but confident image: a perfect synthesis of Vimar's aesthetic principles. A switch plate that exalts the quality of its materials and their finishing.

# ORIGINAL MATERIALS

Eight different approaches to being, living and expressing luxury. Eikon Evo's stylistic options take their inspiration from the latest interior design approaches, distilling their essences and interpreting them in original and personal ways through unusual combinations of materials, colours and finishes. Offering you choices on who to be and how to appear.

# PRIMARI

ANODIZED ALUMINIUM

---

Brillant aluminium

Next grey

Neutral bronze

Dark bronze

Lava grey

With their innate stylishness and unfailing allure, they triumph by projecting unpredictable kinds of sobriety. Presences at once discreet and prestigious, lines both tasteful and confidently defined. These are the five different shades of anodized aluminium.

# ESCLUSIVI

## REFINED ALUMINIUM

---

Silver

Titanium

Polished gold

Satin gold

Black sapphire

Highly original appearances, noble personalities, irresistible appeal. Rare and therefore precious temperaments: the five declensions of enhanced aluminium need only one glance to assert their priceless values.

# SCOLPITI

## CARVED STONE

---

Carrara white

Grey quartzite

Natural split slate

Strong and determined, they reveal themselves in all their solemn physicality. Rigorous by nature, they prefer bold cuts without compromising their richness and refinement. These are the three basic character traits of worked stone.

# NATURALI

## SOLID WOOD

---

White oak

Italian walnut

Wengé

Natural wood projects vitality and immediately transmits a pleasurable sensation of calm and warmth. Simple natural qualities that permeate their appearance... always uniquely unrepeatable... the triple essences of solid wood.

# LUMINOSI

## CRYSTAL

---

Silver ice

Bronze mirror

Diamond white

Aqua

Pearl grey

Opal brown

Diamond black

Imbued with mysterious energy, crystal exerts a spell of purity and splendour like nothing else. Wrapped inside its luminous and delicate appearance lies unequalled vigour and strength. These are the essential features of all seven of the different treatments used on crystal.

# RAFFINATI

NATURAL LEATHER

---

Cream

Tobacco

Pure appeal. The delicate harmonious shapes highlight the marriage of sophistication with genuine naturalness. A beauty with a life of its own, immune to passing time, is evident in both these varieties of leather.

# SPECIALI

CORIAN®

---

Glacier ice

An eclectic personality with the ability to enhance any room by its mere presence. The embodiment of high performance, innovation and intrinsic strength, this is a material that seduces through shining colours which signal its cutting-edge hi-tech content.

# ESSENZIALI

TOTAL ALUMINIUM AND CRYSTAL

---

Total white

Total black

Total white diamond

Total black diamond

28  
29

Like day and night: opposite but inseparable extremes, differently but matchingly absolute. In perfect equilibrium with their surroundings, they generate clean and clear harmonies. There are four such partnerships between aluminium with crystal: a quartet of elegant variations on a universal theme.

EIKON CHROME

# DAZZLING DETAILS

# RECOGNISABLE

## AT A GLANCE

Beauty can be transmitted from a detail. Like the smooth and shiny chrome-plated frame that surrounds Eikon Chrome's buttons and commands. A distinguishing element that provides a touch of pure class.

# PERFECT

## IN TWO SHAPES

Austere symmetrical lines or smoothly rounded edges? Eikon Chrome offers both possibilities through its Classic and Round design lines. Two ways of being and appearing, each with its own particular materials and finishes selected to fit the different shapes like a glove.

# ECLECTIC

## IN MATERIALS

Its materials are multiplied by five, the colours expressing the most varied lifestyles with extraordinary precision: Eikon Chrome's versatility never loses touch with impeccable formal elegance. Thanks to the chromed frame and its innate gift for sophistication.

# REFINED

## REFINED METAL - CLASSIC

---

Satin gold

Satin nickel

Polished gold

## REFINED METAL - ROUND

---

Satin gold

Satin nickel

Polished gold

Satin chrome

Seven different switch plate variants, both matt and shiny, match any style of furnishing. Nobility of character and immediacy, evoking an unmistakable feature: sheer excellence.

# WOOD

## SOLID WOOD - CLASSIC

---

African wengé

White oak

Italian walnut

## SOLID WOOD - ROUND

---

American cherrywood

White oak

Italian walnut

The warmth of the best woods slips easily into modernity, being a material with a versatile temperament: three different shades both for the formal rigour of Classic and the rounded lines of Round

# INOX

STAINLESS STEEL - CLASSIC

STAINLESS STEEL - ROUND

Brushed inox

Brushed inox

The icy perfection of steel is expressed in two versions where only the shape changes. Natural brushed steel is the material for both Classic and Round, projecting a brightly uncompromising personality.

# GLASS

CRYSTAL - CLASSIC

---

Black ice

White ice

Silver mirror

34  
35

An image of sophisticated discretion: exclusive procedures produce the fire-shaped crystal in the Classic style. In three traditional colour variations: black, white and silver. But the class of glass is simply evergreen.

EIKON TOTAL LOOK

# HARMONY IN COORDINATING COLOURS

# SIMPLICITY

## IN COLOURING

Delicately luminous in white, elegantly refined in anthracite grey: Eikon Total Look evokes absolute beauty through just three colours. Buttons and controls perfectly match the colours of the switch plates and the frame around them, proclaiming a monochrome vision.

# DUAL

## FORMS

Two kinds of shape, dual personalities: Eikon Total Look Classic asserts itself with sharp clear lines, while Eikon Total Look Round reveals a milder attitude, sinuous and smooth. To let you choose the design that brings out the best in your interior styling.

# UNEQUIVOCAL

## MATERIALS

Metal is both a functional and aesthetic choice, in a line where buttons and switch plates cohabit in perfect colour harmony. In white and anthracite grey, luminosity becomes a kind of matter.

VARNISHED METAL - CLASSIC

---

Matt anthracite

Arctic white

Matt silver

VARNISHED METAL - ROUND

---

Matt anthracite

Arctic white

Matt silver

White for purity, anthracite grey for modernity, silver for allure. And again, clear sharp lines or soft curves. Whatever the context, Eikon Total Look contributes to any space with its discreet and decisive present-day presence.

# SENSORIAL TECHNOLOGY

# SPECTACULAR

FROM ANY POINT OF VIEW

The technological functions are superior even in terms of visual quality: the multimedia video 10" touchscreen shows you what's going on inside and outside the house in HD images and coordinated and personalised graphics. And thanks to internet interfacing, it's possible to exercise remote control via smartphone, PC or tablet. So you can keep an eye on your home even when you're not there.

# PRECISE

COMMUNICATIONS

Technology means this as well: a 4.3" wide touchscreen video entryphone offering you complete command of all your entryphone and home automation functions. To ensure a perfect reception right from arrival.

# CARING

ABOUT DOMESTIC ENERGY

The functions applied to Eikon technology provide you with a rapid picture of your home's energy profile, organizing and visualizing both the production of energy and its consumption, either considering the entire household or else every individual device. Offering an unprecedented energy awareness which helps avoid waste.

# INTERNATIONAL

## VOCATION

A technology that knows no borders and can be adapted to the standards and modularity of any country. Travelling with the unmistakable Italian touch of Eikon's switch plates, of course.

# COORDINATED

## IN EVERY APPLICATION

A technology that offers perfect aesthetic coordination between every application: supervision, commands and connections to any kind of network. A complete and coordinated control-point where beauty and functional excellence coincide.

# ELEGANCE

## OF COLOUR

A choice of two colours for buttons and commands, ranging from the airiness of white to the sobriety of anthracite grey. All in the name of a technology inseparable from aesthetic appeal.

# EFFICIENCY

## FOR COMFORT

3-module touch screen

Universal dimmers

Timer-thermostat

Modular lights

Touch-technology devices that manage to transmit wellbeing like music through every room, universal regulation for lighting – including colour variations – timer thermostats programming temperature hour by hour and room by room, and modular lights for every situation. Efficient technology at the service of your comfort.

# SURPRISING

## MULTIMEDIA OPTIONS

3-module touch screen

Docking station

USB, HDMI, RCA sockets

Eikon Tactil device for sound system

Connecting with the outer world, or simply providing enjoyment: technology is also about pleasure. Eikon can guarantee exceptional multimedia performance via an extensive and superlative sound system, a wide range of inputs for data, sound, video and USB, and compatibility with iPod, iPhone and mp3 devices.

Arké lives in your time.

Contemporary design.

Intuitive, advanced functions.

Home automation simplifying home management.

## Design: simple lines, contemporary favour.

Fashions change, continuously. But, today more than yesterday, we feel the need to be less fickle, and more concrete.

We surround ourselves with simple, current and long-lasting objects, like Arké: designed in the present, for the future.

### CONVEX BUTTONS.

A pleasant feeling ergonomic shape, only slightly perceptible to the eye, accompanies the controls.

### LARGE PROPORTIONS.

Large sized surfaces that underline shapes and materials.

### TWO DESIGNS.

Arké Classic: rigorous and linear.  
Arké Round: soft and sinuous.

### FINISHES AND COLOURS.

Materials selected to last, colours chosen in harmony with contemporary style.

# Functions: intuitive technologies, evolved performance.

No waste: a principle that is changing our lifestyles. This is why we choose objects that help us to optimise our time and our energies. Like Arké: reliable and precise, with functions and controls that make our everyday gestures easier.

## UNIVERSAL DIMMERS.

Latest-generation controls to adjust the intensity of LED and low consumption (CFL) lights, to combine savings and comfort.

## CONTROL FUNCTIONS.

Lighting, climate, security, entertainment, communication: special devices control and supervise every activity.

## AXIAL CONTROLS.

Modern, reliable technology, for buttons that represent a further variant to traditional controls.

## BACKLIGHTING.

The buttons are back-lit by LED technology and the night&day symbols clearly indicate the functions.

## MODULAR VIDEO DOOR ENTRY SYSTEMS.

A function that can be included in the electrical system to communicate with the outside world, rapidly and effectively.

# ARKÉ APPEARS.

Two designs inspired by the principle of simplicity: the cover plates are divested of all superfluous decoration, defining a new energy model. Arké Classic: rational shape, linear profile and clean corners. Arké Round: sinuous surface, slightly curved with soft corners.

ARKÉ CLASSIC. Matt blue.

ARKÉ ROUND. Blue.

# ARKÉ CHANGES.

Two button and control versions: the natural elegance of anthracite grey and the luminous soberness of white. Arké can be dressed in the colours that best suit your home, with no limits to the possible combinations, for an integral or two-tone look.

Anthracite grey buttons, Classic cover plate, matt graphite.

White buttons, Round cover plate, matt polar.

# ARKÉ DISPLAYS.

Materials selected according to criteria of resistance and modernity. Produced with attention to the typical finishes of Italian made goods. Treated with eco-friendly processes, co-moulding with excellent finish, wear-proof painting. And associated to a wide range of colours, allowing you to choose the combination that suits your living space.

## METAL-COLOR - VARNISHED METAL

Cover plates in painted zamak, a particularly resistant material that gives Arké an even more technological appearance.  
In six different varnished colour variants, to make colour a key feature.

Classic - 01 Matt graphite

Classic - 02 Matt slate

Classic - 03 Silver

Classic - 04 Matt titanium

Classic - 05 Matt pearl

Classic - 06 Polar

Round - 21 Matt graphite

Round - 22 Slate

Round - 23 Matt silver

Round - 24 Matt bronze

Round - 25 Matt pearl

Round - 26 Polar matt

## METAL-ELITE - REFINED METAL

Another version of processed zamak; the PVD treatment maintains the features of the material and increases its chemical and physical resistance. In four exclusive colour shades.

Classic - 07 Gold

Classic - 08 Brushed inox

Classic - 09 Black chrome

Classic - 10 Black nickel

Round - 27 Gold

Round - 28 Chrome

Round - 29 Dark nickel

Round - 30 Matt nickel

## ALU-TECH - ALUMINIUM

Modern and technological, deep-drawn aluminium underlines the contemporary flavour of this range.  
In two colour shades that enhance its texture: natural and lava.

Classic - 15 Aluminium

Classic - 16 Lava

## WOOD - SOLID WOOD

Warm, strongly material cover plates: five different types of solid wood chosen for their finish, luminosity and natural qualities.

Classic - 41 Wengé

Classic - 42 Cherrywood

Classic - 43 Larch

Round - 51 Walnut

Round - 52 Cherrywood

Round - 53 Maple

## REFLEX PLUS - REFLEX

A shiny material with a special icy effect. Six colours: from the full-bodied caramel and deep blue to the lighter shades of sage and smoky grey.

Round - 61 Smoke grey

Round - 62 Caramel

Round - 63 Orange

Round - 64 Marine blue

Round - 65 Sagegreen

Round - 66 Ice

## COLOR-TECH - PAINTED TECHNOPOLYMER

Technopolymer with a special painted finish. Makes the colours shine with elegant brightness.  
The energy of red, green and blue, the preciousness of gold and silver.

Classic - 75 Matt red

Classic - 76 Matt blue

Classic - 77 Matt green

Classic - 78 Matt gold

Classic - 79 Matt silver

Round - 85 Red

Round - 86 Blue

Round - 87 Green

Round - 88 Antique gold

Round - 89 Silver

## TECNO-BASIC - TECHNOPOLYMER

A simple, strong material, with satin finish for Classic cover plate that Arké associates with elegant yet sober neutral colours.  
From black to white, passing through the warmer shades of grey and ivory.

Classic - 71 Black

Classic - 72 Grey

Classic - 73 Ivory

Classic - 74 White

Round - 81 Black

Round - 82 Grey

Round - 83 Ivory

Round - 84 White

# ARKÉ CONTROLS.

Switch on a light, open a door, lower a shutter: everyday actions that Arké makes more pleasant and immediate. Thanks to the precision of its axial controls; the clarity of the night&day symbols that indicate the various functions, the LED backlighting. Different types of controls for practical management, like the infrared remote control. And extended modularity that guarantees the fullest installation freedom.

## CONTROLS FOR EVERY NEED.

One or two module buttons that can be customised and back-lit for a bespoke control system.

## TRADITIONAL CONTROLS.

Different modularities and customisable symbols to indicate every function.

## INFRARED CONTROLS.

To practically manage lighting and shutters with a special remote control.

## AXIAL CONTROLS.

Reliability meets appearance, in this latest-generation technology which maintains the buttons aligned. Every control can be customised with screen-printed and back-lit symbols.

# ARKÉ ILLUMINATES.

High-efficiency light sources, optimised for different uses: so lighting gets where it needs to be, with no waste. Automatic modular lights, step markers, warning lights and removable emergency lamps that light up in the event of a black out. Every device uses latest-generation LED specular transparent diffusers. For a truly brilliant performance.

#### STEP MARKER LAMPS.

LED devices that light up access routes, corridors and stairways.

#### WARNING LIGHTS.

To warn of an open gate, a light or other function left on.

#### TORCIA, REMOVABLE HAND LAMP.

A portable emergency light, that comes on instantly in the event of a black out.

#### LIGHTING FITTINGS.

High-efficiency light sources, in a range of modularities and dimmer functions to create the perfect atmosphere, every time. As well as emergency devices that come on in the event of a black out to guide you safely in the dark.

# ARKÉ SAVES.

Top comfort and energy savings: this is possible, with Arké. Universal dimmers adjust the intensity of LED and low consumption (CFL) lights to create the perfect atmosphere. Timer-thermostats and timer-switches are used to automatically or manually set the ideal temperature and other functions, to avoid waste. And the radio-frequency, wireless and battery-free technology allows the system to be extended with no brick work, adding new lighting points where you need.

#### TIMER-THERMOSTAT.

The temperature is programmed, supervised and modified quickly and easily.

#### TIMER-SWITCH.

At the set times, the air conditioning or irrigation comes on even if nobody is at home.

#### RADIO FREQUENCY.

For installing new devices, anywhere, even on wood or glass walls.

UNIVERSAL DIMMERS.

Used to adjust the brightness of even LED and low consumption (CFL) lights.  
So savings and the perfect atmosphere go hand in hand.

# Home automation: optimised energy, simplified management.

Energy is precious, and we take increasingly more care over how we use it: we prefer technologies that reduce consumption. Arké, with the By-me home automation system, prevents energy waste and makes it easier and quicker to manage all the rooms in the home.

## CONTROL AND COMFORT.

Coordinated functions create relaxing scenarios: lighting, climate, speaker system are all managed easily and in a customised manner.

## ENERGY SAVING.

Functions that allow you to monitor consumption in real time and have a precise picture of the energy profile of your home.

## SECURITY.

Technical and intrusion alarms: with By-me, everything is under control and serenity spreads throughout the home.
