SWITCH ON THE FUTURE

myrah[®] TOUCH

TOUCH THE future

This is the start of a new future. A brighter, smarter, more elegant future.

A future that has been imagined to impress and engineered to surpass the ordinary.

This is the world of Myrah Touch - a new range of switches that will revolutionize the way you live.

THE SCIENCE OF **simplicity**

The source of Myrah's genius is its simplicity. And yet, some of the most remarkable engineering and advanced technology go behind the creation of every switch; rewarding you with a luxury most essential: effortless.

WHEN **form** FOLLOWS FUNCTION

Very rarely do science and art arrive at the same conclusion for something beautiful to take shape. With a futuristic mirror finish, sharp contrasting chrome edges and a blue LED accent (easy to locate even in the dark) you can't help but agree, Myrah touch is one such instance.

A TOUCH OF **class**

Myrah touch comes in mirror finish of Black, & metal finish of Black, Aluminum & Champagne with chrome accent. Available in configuration of 1, 2, 3 and 4 switches per panel, as easy-access two-way switches in configurations of 1 and 2 switches per panel.

This is elegance made simple!

switch moods WITH A TOUCH

A warm and cozy setting for the book lover. A soft, mellow vibe for those unwinding front of the TV. An intensely intimate ambience for the romantic at heart. What ever mood you imagine, the Myrah touch dimmer responds with perfect lighting

Specifications:

- 8-step linear speed
- Intuitive finger control
- Operating voltage - 230V
- Operating frequency - 50Hz
- Max load

WITH **world class** SPECIFICATIONS

To match the requirement of the new age hotel room- these switches let guests make their preferences known to hotel staff and visitors. Imagine a switch that lets you go from 'Do Not Disturb' to 'Make my Room' in the blink of an eye! A master switch or a light symbol cluster makes it a delightful indulgence for the hotel guests - An intelligent investment for the hospitality industry

SecureX
WIRES & CABLES

THE **POWER**
OF **3**

THE POWER OF 3

ARE YOUR SURROUNDINGS TRULY PROTECTED?

How safe do you feel in your living spaces that are surrounded by live wires - some visible while most of them hidden in concealed wiring?

Though the modern age grants us many ways of fire suppression and hazard control, prevention will always remain the remedy against threats to life and property.

With three times the protection that ordinary Cables offer, SecureX comes with Triple layered Insulation, a core made of the purest grade of copper, a base insulation of 105°C rating and excessive overload with standing capacity.

ATTRIBUTES

TRIPLE LAYER INSULATION FOR TRIPLE PROTECTION

SecureX Cables come with a unique triple layer insulation to ensure three times the protection - a one of its kind feature unique to SecureX wires.

105°C BASE INSULATION

The base layer consist of 105°C temperature rating as against the 70°C of any ordinary cable. The middle and top layers are exceptionally flame retardant (FR). SecureX thus ensures Triple protection of your life and property.

PURE COPPER - PUREST TO THE CORE

At the core of SecureX Cables is the highest purity Electrolytic Grade Copper as against lower grade copper used in ordinary cables that offer poor conductivity. With greater than 100% conductivity ad per IACS (International Annealed Copper Standard), the energy losses are minimal resulting in lower power bills.

PURE PVC INSULATION

Pure, superior grade PVC resin and compounding ingredients are used to produce the in-house specially formulated and tailor-made PVC compound for each type of cable that has higher insulation resistance, thermal stability and exceptional fire retarding properties. The purity inside ensures safety, reliability and long cable life.

INTRODUCING THE *SecureX* FAMILY

With over 50 years of experience in electrical solutions, we understand the importance of cables in electrical installation, as it connects various devices and appliances. The most important criterion for a cable is its suitability for a particular application and level of Safety and Protection. This is why we have 3 distinct categories of cable, ranging from normal/ regular to the special use as opposed to 'one solution for all approach, and guarantee effective Safety.

SecureX

FR-PVC With 105°C base Insulation

SUPERIOR MULTI LAYERED PROTECTION

SecureX Cables are manufactured on the state-of-the-art insulating lines employing the most advance technology for its perfectly bonded triple layer insulation.

The first Heat Resistant Flame Retardant (HRFR) layer primarily tackles heat generation caused by current flow. It also possesses flame retarding properties. The middle and top FR (Flame Retardant) layers fight and retard the fire propagation in the event of an accidental fire.

The HRFR PVC layer withstands temperature rise up to 105°C which may be caused due to excessive power draw, voltage fluctuation or spike. In addition, it acts as barrier to excessive heat transfer to the FR middle and top layer.

FR-PVC With 105°C base Insulation

FLEXIBLE CABLES

With a highly flexible class 5 conductor and specially designed Flame Retardant (FR) flexible PVC insulation compound that imparts exceptional flexibility, these cables can be used in confined and constricted spaces. Our flexible cables assure maximum stretch endurance and zig zag / sharp hairpin bends without any stress to the insulation.

Single Core Non-Sheathed 1100V PVC insulation copper conductor cable as per IS 694

SecureX Plus

FR-LSH With 105°C base Insulation

FLAME RETARDANT - LOW SMOKE & HALOGEN WITH 105°C BASE INSULATION (FR-LSH)

With all properties of FR, the insulation of SecureX Plus Cables is further fortified with low smoke and low halogen emission characteristics. These Cables emit 50% less smoke as compared to other cables and with even lesser amounts of corrosive halogen acid and toxic gases. These are good to use in modern homes using multiple electrical appliances with high power draw, high rise residential buildings, commercial complex, public place, schools, hospitals, etc.

Single Core Non-Sheathed 1100V PVC insulation copper conductor cable as per IS 694

SecureX Ultra

ZHFR with 105°C base Insulation

ZERO HALOGEN FLAME RETARDANT (ZHFR) ZHFR with 105°C base Insulation

Made with best grade imported ZHFR insulation, SecureX Ultra Cables guarantee absolute zero emission of smoke and harmful toxic gases like halogen in an event of fire. Thus, SecureX Ultra Cables are best suited for superior safety of residential and commercial complexes, theatres, metro railways, chemical and nuclear plants, high security and defence installations, etc.

ROUND MULTI-CORE CABLES

GreatWhite Multi-Core Cables are available for a wide range of applications. These cables are manufactured with special FR grade highly flexible PVC insulation and matching flexible sheathing compound that imparts superior flexibility, ability to withstand stretch and compressive force for electrical appliances. These are suitable for multifarious industrial uses.

LAN CABLES

Cat6 300 MHz UTP Lan Cable while possessing the performance characteristic of Cat5e, this higher category cable is designed for higher electrical performance (at 300 MHz) and higher speed data transmission capacity for mission critical LAN application or structured cabling services.

- Low Attenuation and Cross Talk
- Low NEXT (Near End Cross Talk)
- Low Powersum NEXT
- Ideal for use in horizontal structured cabling.

uPVC CONDUITS & TRUNKING SYSTEM

INTRODUCTION

GreatWhite uPVC Round Conduit are manufactured from a specially formulated unplasticised polyvinyl chloride (uPVC) to meet the most stringent Indian and International standards. Made from extra virgin uPVC, the conduits have High Impact Strength and can withstand the toughest installation environment. All raw materials used are Lead Free and thus the conduits are RoHS compliant. Available in different diameters and grades with light, medium and heavy mechanical stress to suit various site conditions.

GreatWhite uPVC Round Conduits come with one Socketed end that help in fast and easy installation. Durable, Fire Retardant, Corrosion Free and Thermal Resistant from -5°C to +60°C are some of the other properties along with a smooth finish from inside makes pulling of wires easier.

Certification & Inspection

Certificate of Compliance

CE

We hereby declare that the technical file of product complied with the requirement of directives 2014/35/EU Low Voltage Directive.

Certificate No.: CE-33014

Manufacturer

Name : GREAT WHITE GLOBAL PRIVATE LIMITED

Address : Survey No. 32/2/PI, 35/2, 36/PI, 38/P1 and 39/P2, Gundlav, Valsad
N.H. No. 48, Valsad, Gujarat-396035, India

Products : PVC Insulated (Unsheathed) Single Core Cables, PVC Insulated Unsheathed & Sheathed Multicore Cables/Cords, PVC/XLPE Insulated & Sheathed Single Core/Multicore Armoured Cables, Communication Cables, PVC Conduit Pipes, Casing, Capping & PVC Tapes, Domestic Switches, Sockets, Plugs and Wiring Accessories

The Certification body has performed an audit of the above product quality system covering the design, manufacture and final inspection of the certified product. The quality system has been assessed, approved and is subject to continuous surveillance according to Directive 2014/35/EU Low Voltage Directive.

This certificate is issued under the following conditions:

1. It applies only to the quality system maintained in the manufacture of above referenced models and it does not substitute the design or type-examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality systems are changed.
3. The certificate validity is conditioned by positive results or surveillance audits.

The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant EC Directives. The statement is based on a single evaluation of one sample of above mentioned product. It does not imply an assessment of the whole production.

Validity of this certificate can be verified at www.ukcertifications.org.uk/verify

Date of Certification	24th July 2020
1 st Surveillance Audit Due	23 rd July 2021
2 nd Surveillance Audit Due	23 rd July 2022
Certificate Expiry (subject to the company maintaining its system to the required standard)	23 rd July 2023

Authorised Signatory

This certificate is the property of UK Certification & Inspection Limited and shall be returned immediately on request.

Company No. 11847851

Certificate of Compliance

RoHS Directive (2011/65/EU) as Amended (EU) 2015/863 of the European Parliament and of the Council on the restriction of use of certain Hazardous Substances in Electrical and Electronic Equipments.

Certificate No.: UQ-32749

Manufacturer

Name : GREAT WHITE GLOBAL PRIVATE LIMITED

Address : Survey No. 32/2/PI, 35/2, 36/PI, 38/P1 and 39/P2, Gundlav, Valsad N.H. No. 48, Valsad, Gujarat-396035, India

Products : PVC Insulated (Unsheathed) Single Core Cable/Cords, PVC Insulated Unsheathed & Sheathed Multicore Cables/Cords, Communication Cables, PVC Conduit Pipes, Casing, Capping & PVC Tapes.

This is to state that the above mentioned product is in compliance with RoHS Directive (2011/65/EU) as Amended (EU) 2015/863 of the European Parliament and Commission Decision 2005/618/EC on the restriction of use of certain Hazardous Substances [Lead (Pb): < 1000 ppm, Mercury (Hg): < 100 ppm, Cadmium (Cd): < 100 ppm, Hexavalent Chromium (Cr VI) < 1000 ppm, Polybrominated Biphenyls (PBB): 1000 ppm, Polybrominated Diphenyl Ethers (PBDE): < 1000 ppm, Bis(2-Ethylhexyl) phthalate (DEHP): < 1000 ppm, Benzyl butyl phthalate (BBP): < 1000 ppm, Dibutyl phthalate (DBP): < 1000 ppm, Diisobutyl phthalate (DIBP): < 1000 ppm in Electrical and Electronic Equipments

Statement:

This certificate declares that the product type / model described above complies with the mentioned above European Standard(s).

Remarks:

This certificate of complies is based on the evaluation of a sample of the above mentioned products. It does not imply and assessment of the mass-production of the product. This certificate holder may use this certificate in connection with the test report. The certification body should be informed (revision of technical file) for any modification or alterations made to the aforementioned product type(s), including design and manufacture and /or extension to the existing scope of application.

The certificate is valid for three years if the company applies the technical construction file which has been stored in UKCert office. This certificate includes declaration of manufacturer. Certificate remains property of UKCert (UK Certification and Inspection Ltd.) to whom it must be returned upon request. The certificate validity is conditioned by positive results or surveillance audits.

Validity of this certificate can be verified at www.ukcertifications.org.uk/verify
